The Buying Process

1

CONSULTATION

We sit down, agree on what you are looking for, and set a realistic budget and timeline.

2

PRE-APPROVAL

You speak to a lender and get a written pre-approval. Nothing else happens until this does.

3

THE SEARCH

Curated listings, private showings, and honest opinions about the ones that are wrong for you.

4

THE OFFER

We price the offer against real comparables and structure the terms to make it competitive.

5

NEGOTIATION

Counter-offers, contingencies and repairs. This is where having done it a thousand times pays.

6

CONTRACT & DILIGENCE

Attorney review, inspection, board package if applicable, and the appraisal.

7

CLOSING

Final walkthrough, wire, signatures, keys.

Financing Options

What every lender will ask you for: two years of tax returns, recent pay stubs, two months of bank statements, and a list of your debts. Gather it once and a written pre-approval takes days rather than weeks. Nothing else in this packet happens before that pre-approval exists.

CONSULTATION

We sit down, agree on what you are looking for, and set a realistic budget and timeline.

FHA

As little as 3.5% down and far more forgiving on credit. The trade is mortgage insurance that stays for the life of most FHA loans.

VA

Nothing down and no mortgage insurance for eligible service members, veterans and surviving spouses. The strongest terms in the market, and badly under-used.

JUMBO

Anything above the county conforming limit. Tighter underwriting, larger reserves, and worth using a lender who writes them every week.

FIXED OR ADJUSTABLE

A fixed rate buys thirty years of certainty. An adjustable one only makes sense if you genuinely know you are gone before it resets.

ALL CASH

The fastest and strongest offer on the table. You can still put a mortgage on the house afterwards and take the money back out.

SPENT BEFORE YOU OWN ANYTHING

BEFORE YOU CLOSE

Home inspection	Booked the day attorney review starts	\$500 – \$900
Specialty inspections	Radon, oil tank, sewer, termite — each	\$100 – \$500
Appraisal	Ordered by your lender, paid by you	\$600 – \$1,000
Deposit	At contract — credited back to you at closing	5 – 10% of price

AT THE CLOSING TABLE

Attorney	Contract through closing, flat fee	\$1,500 – \$3,500
Title search & insurance	One-time, and it protects your title, not the lender's	0.4 – 0.6% of price
Lender fees & points	Origination, underwriting, any rate buy-down	0.5 – 1.5% of loan
Survey	Usually required in New Jersey	\$600 – \$1,200
Recording & transfer fees	County and municipal	\$300 – \$1,200
Mansion tax	On sales of \$1M and above	1% of price
Escrow set-up	Prepaid property taxes and insurance	2 – 6 months
First year of insurance	Home owner's, due at closing	\$900 – \$2,500

OPTIONAL, BUT BUDGET FOR IT

Staging	Only if you are selling a home to buy this one	\$1,500 – \$5,000
Movers	A local move, two bedrooms or so	\$1,200 – \$4,000
Repairs and paint	What you want done before you move in	Varies
Reserves	What lenders like to see left over afterwards	2 – 6 months of payments

Ranges for budgeting, not quotes. Percentages bill against the purchase price unless the line says otherwise, and the real figures come from your attorney and your lender once there is an actual house and an actual loan.

- ☐ What happens if the appraisal comes in low?

Offer & Negotiation

PRICE IS ONLY ONE TERM

Closing date, contingencies and financing type routinely matter more to a seller than the last \$10,000.

KNOW THE COMPETITION

We check what else is in contract on the block before we name a number, not after.

CONTINGENCIES PROTECT YOU

Inspection, financing and appraisal contingencies are your exits. We waive them deliberately, never casually.

MOVE FAST, DECIDE SLOWLY

Inspection, financing and appraisal contingencies are your exits. We waive them deliberately, never casually.

ESCALATION, CAREFULLY

Escalation clauses can win a bidding war or reveal your ceiling. We use them situationally.

EVERYTHING IN WRITING

Verbal agreements are not agreements. Every accepted term goes into the contract.
